WORK EXPERIENCE

CLIENT SIDE DEVELOPER, at [Booking.com](https://www.booking.com) (Jan'18 – Present)

GRADUATE DEVELOPER, at [Booking.com](https://www.booking.com) (Feb'17 – Dec'17)

Worked in different verticals of the company

- Worked in BookingSuite, one of the partner facing products of the company.
- Worked on making the payments at Booking.com a smooth experience for both users and other products
- Worked on the localisation team for the North American market to cater the Booking.com customer facing website to the US/Canada users.

SOFTWARE ENGINEER, at [Practo](https://www.practo.com) (May'16 – Jan'17)

Worked on Practo's latest mobile web application

- Implemented the new search flow in the mobile website.
- Worked on sitemap and some other SEO tasks.
- Implemented various trackers that helped us look into the user behaviour and give the world an even better medical experience
- Contributed to redesigning of the website.

SOFTWARE DEVELOPMENT INTERN, at [Practo](https://www.practo.com) (Jan'16 – May'16)

Worked on Practo's latest mobile web application

- Implemented SEO including Schema.org amongst aspects of SEO during the project, used Yahoo's fluxible framework and React.js.
- Also worked on Practo.do, a to-do list web application with OpenID for signing up and signing in, Express (Node.js) for backend and React.js for frontend.

WEB DEVELOPER, at [foodsonwheels.com](https://www.foodsonwheels.com) (Nov'14 – Mar'15)

Designed and developed the whole website

- Foods-On-Wheels is an ecommerce website for ordering food from hotels of a particular city in your train journey.
- Designed and created the front end as well as back end part of the FoodsOnWheels.
- Used HTML5, CSS3, JavaScript and jQuery for front end and PHP for the backend.

WEB DEVELOPMENT INTERN, at [confirmkt.com](https://www.confirmkt.com) (Aug'14 – Nov'14)

Initial versions of Mobile Website of ConfirmTkt

- The major turnout of the website was from mobile users.
- Created the mobile specific version which increased the numbers of users per day to average 2k.
- Used HTML5, CSS3 and JavaScript on Twitter Bootstrap and implemented REST APIs using jQuery.

SOFTWARE DEVELOPMENT INTERN, at [magicbricks.com](https://www.magicbricks.com) (May'14 – Jun'14)

Ratings page of each broker of MagicBricks for MB newsletter

- The ratings page for MagicBricks was a huge success and after the ratings page addition, the reviews improved significantly.
 - Created an HTML file to be printed for each broker of MagicBricks displaying their packages and listed properties.
 - Entire data was fetched from two MS-Excel files of 300+ brokers each and put into individual HTML files for each entry.
 - Used *Apache Velocity* and *Java* to generate HTML files from MS-Excel using *Apache POI* where each file comprised of data from different Excel files.
-

EDUCATIONAL QUALIFICATIONS

- **B.Tech** in Information Technology, **IIIT Allahabad**, Class of 2016
-

PROJECTS

MOBILE WEB APPLICATION OF PRACTO (<https://www.practo.com>)

- Was on the mobile web app team from the beginning and worked on it to get it rolled out to 100% of our users for a better experience.
- The conversions were improved after launching this dedicated MWA.
- Used React.js (Fluxible), SASS for the product development

BROWSER EXTENSIONS (<http://www.pratyushvashisht.com/projects.html>)

- First ever browser extension to append a customized signatures to messages you send on LinkedIn.
- An extension to override the websites that don't allow you to paste in some fields
- An extension to play the Facebook game Airline Manager 2 on a bigger screen by removing Facebook clutter

TO-DO LIST WEB APPLICATION (<http://bit.do/practodo>)

- Developed a to-do application where users can group to-dos in lists. Edit and share the lists further to work on things together. A section shows the things to do for current day.
- Used React.Js for frontend and Node.Js for backend.

DESIGNED AND DEVELOPED WEBSITE OF IEEE STUDENTS' BRANCH (<http://ieee.sb.iiita.ac.in>)

- Developed the website for IEEE Students' Branch of our college.
- Used HTML, CSS and jQuery functions to design the website and PHP for pagination in some sections.

FREELANCING PROJECTS

- Worked on the front end of <http://eboxnetwork.net> (WordPress).
- Made a module for sending SMS to multiple numbers at once from website for a US based company using <http://cdyne.com/> SMS API.

COLLEGE FEST WEBSITE & PORTAL

- Designed and created the front end part of the college's annual cultural fest's website in the year 2014.
- Improved the polling portal for fest's official T-Shirt that helped in fair and clean voting.
- Conducted workshops for juniors on Web Technologies and taught them basic Web Development.
